About the program-
Agri SAARTHI: KRANTI 2026

This programme will be the **largest and most comprehensive agricultural training initiative in India,** encompassing *all major disciplines of agriculture and allied sciences*. It aims to engage undergraduate and postgraduate students, research scholars, and young faculty from across the country. The programme will be conducted **online** through live national expert sessions, with **offline practical learning components** (if required) to be implemented at **partner universities and constituent colleges** to realize the dream of the **Lab to Land programme** by **the Hon'ble Union Agriculture Minister Sh. Shivraj Singh Chouhan** in direction to fulfil dream of **the Hon'ble Prime Minister Sh. Narender Modi of Viksit Krishi, Viksit Bharat @2047.**

Speakers and Resource Persons

Senior Academics/Researchers –ICAR Deputy Director Generals, Vice-Chancellors, Principal Scientists (soil, crop, livestock) and CAU/SAU faculty.

Extension Specialists – SMS from KVKs and Agriculture Department Officers.

Industry/Startup Experts – CEOs of Agri-Tech companies (e.g. drone firms, biofertilizer startups) to cover innovations.

Progressive Farmers – award-winning organic or precision farmers (e.g. SRI practitioners, "Krishi Ratna" winners) to share field insights.

Core Vision:

To launch India's largest and most comprehensive training movement covering *all disciplines of agriculture and allied sciences,* empowering students, scholars, and professionals with revolutionary knowledge, practical exposure, and innovation-driven learning.

Our Mision:

Our mission is to **empower farmers and learners** across India with cutting-edge agricultural education, hands-on training, and innovative skill development, enabling them to create sustainable solutions and lead transformation in the agriculture and allied sectors

Expected Outcomes:

- Strengthened academic collaboration between agricultural universities across India.
- Enhanced student awareness and technical competence.
- Creation of a digital knowledge repository of lectures and training modules.
- Integration of practical training through offline institutional partnerships.
- Empower our Annadatas: The Backbone of our Nation

Integration with ICAR 6th Dean's Committee & NEP 2020 Guidelines on Online Courses:

- We are pleased to inform you that the proposed **"Agri SAARTHI: KRANTI 2026" – 30-Day National Training Programme** fully aligns with the **ICAR 6th Dean's Committee recommendations (as per NEP 2020)** on integrating **online courses equivalent to 10 credit hours** within the undergraduate curriculum of agricultural universities.
- According to ICAR and UGC guidelines, undergraduate students must undertake a **minimum of 10 credits of online courses** (covering approximately **30–40 hours of learning)** from approved portals such as **SWAYAM, NPTEL, mooKIT, edX, Coursera, or any other online platform**. These courses are designed to strengthen academic depth and promote multidisciplinary exposure beyond prescribed curricula.
- In alignment with this academic policy, **"Agri SAARTHI: KRANTI 2026"** has been carefully structured to include daily **2-hour interactive sessions over 30 days,** amounting to a total of **60 hours of guided learning**, which is **equivalent to 20 credit hours**. This exceeds the minimum prescribed duration for online learning under NEP 2020 and thus provides participants with a **valid, recognized academic engagement** component that universities can **consider for partial fulfilment of degree requirements** under their **B.Sc. (Hons.) Agriculture and Allied Sciences** programmes.
- We, therefore, request that your esteemed university may kindly consider this training programme for **official recognition under the online credit framework** and record participation in students' **academic transcripts**, as per ICAR-NEP guidelines.
- This alignment ensures that the programme is not only a learning experience but also a **credit-earning opportunity,** enhancing its academic value and motivating students to participate actively.

Learn and Earn Credits:

Assessment, Certification and Credits

Participants will be evaluated via

- **daily attendance/participation** cum feedback form,
- **quiz scores** (short online tests on key concepts), and
- **final examination** (Time bound online/offline exam).

Successful candidates receive a **Certificate (10 credit hours)** co-endorsed by the organizing society and partnering universities/institutions. This aligns with the new credit-based norms: e.g., the ICAR Sixth Deans' Committee designates **20 credits** for the experiential "Student-READY" internship module and another **10 credits** for online courses. We will document completion in a format compatible with the Academic Bank of Credits (ABC). **According to NEP 2020,** the students are encouraged to complete additional 10 online credits via approved MOOCs (Agri SAARTHI/SWAYAM/NPTEL courses) during their degree – in line with NEP's recommendation for UG programs. **Agri SAARTHI** certificates will indicate equivalence to 10 credits, partially fulfilling degree requirements **and there will be no need to do other courses after completing Agri SAARTHI: KRANTI 2026.**

About MoAFW

MoAFW, or the Ministry of Agriculture & Farmers Welfare (MoA&FW), is the apex Indian government body managing India's agriculture, food processing, and cooperation policies, responsible for farmer welfare through schemes like PM-KISAN, promoting technology (AI in forecasting), and ensuring food security, headed by a Union Minister (currently Sh.Shivraj Singh Chouhan) and supported by Ministers of State.

Key Functions & Structure

- **Policy & Regulation:** Formulates rules, regulations, and laws for the agriculture sector.
- **Departmental Structure:** Comprises the Department of Agriculture & Farmers Welfare (DA&FW) with 28 divisions, several attached/subordinate offices, PSUs, and autonomous bodies.
- **Coordination:** Works with state agencies to implement central schemes and initiatives.

Key Initiatives & Focus Areas

- **Farmer Welfare:** Implements schemes like PM-KISAN (direct income support) and focuses on farmer-centric policies.
- **Technology Adoption:** Utilizes AI for advanced weather forecasting to help farmers make informed decisions.
- **Mechanization:** Promotes new technologies and equipment for farming.
- **Crop Promotion:** Supports initiatives like the Clean Plant Programme for high-quality horticulture crops.

About ICAR

The Indian Council of Agricultural Research (ICAR) is India's apex body for coordinating, guiding, and managing agricultural research and education, under the Ministry of Agriculture, DARE (Department of Agricultural Research and Education). Established in 1929, it oversees numerous institutes and agricultural universities, playing a crucial role in India's Green Revolution and focusing on sustainable, innovation-led growth in crops, horticulture, fisheries, and animal sciences. ICAR's mandate includes research, education, technology dissemination, and addressing challenges like climate change and land degradation.

Key Functions & Role

- **Coordination:** Manages research and education across India's agricultural sector.
- **Research & Development:** Drives advancements in agriculture, playing a pivotal role in the Green Revolution and sustainable farming.
- **Education:** Oversees a vast network of agricultural universities.
- **Information Hub:** Acts as a central point for agricultural research data and general information.
- **Policy & Strategy:** Develops frameworks like 'ICAR Vision 2050' for future growth.

Current Focus Areas

Combating land degradation and improving soil health, Enhancing water productivity, Addressing climate change impacts on agriculture, and Promoting innovation in areas like aquaculture and horticulture.

About SAARTHI

Agri SAARTHI is a technology-driven agricultural platform dedicated to empowering farmers, Farmer Producer Organizations (FPOs), and cooperatives by bringing essential agri-services, digital tools, and market linkages directly to rural communities. Named with the spirit of a "guide" in agriculture, Agri SAARTHI combines digital solutions with physical engagement to democratize access to quality inputs, expert advisory, and sustainable farming resources across India.

Key Functions & Role

- **Training & Awareness:** Regular workshops, trainings, conferences, digital content for different stakeholders of agriculture especially students and farmer education for skill-building and empower our Annadatas
- **Digital and Physical Integration:** Integrates farmers, FPOs, cooperatives, and service providers on one platform using AI/ML for smarter decisions.
- **Farm Support Services:** Delivers climate-smart advisory, soil testing, cultivation guidance, and traceability services to enhance productivity and profitability.
- **Input & Market Linkages:** Provides quality inputs, agri-credit, mechanization, market access, and warehousing support to reduce risk and increase income.
- **Empowering Rural Ecosystems:** Strengthens FPOs and cooperatives to build sustainable value chains ensuring better opportunities and fair returns.

Current Focus Areas

Sustainable farming, data-driven decision support, FPO capacity building, and accessible agri-services that make farming more productive, profitable, and future-ready.

Pillars of Agricultural Excellence in India

ICAR- National Dairy Research Institute, Karnal, Haryana

NDRI Karnal (National Dairy Research Institute) is **India's premier dairy research & education** center in Haryana, known for **dairy production, planning, processing, management and HRD**, offering UG/PG courses, practical training, and vital tech transfer via its ATIC, crucial for India's dairy growth, with renowned research in microbiology, genetics (like cloning), and quality products (flavored milk).

Pillars of Agricultural Excellence in India

Central Agricultural University (CAU), Lamphelpat, Imphal, Manipur

Central Agricultural University (CAU), India's first central university for agriculture, established in 1993 with its main campus at Lamphelpat, Imphal, serving the Northeast region with **education in agriculture, fisheries, veterinary sciences,** and more, known for smart classrooms, advanced labs, research in **integrated farming (fish-duck, dairy), and outreach programs,** with admissions via CAU entrance test and CUET, and holding a rank in NIRF rankings.

Pillars of Agricultural Excellence in India

Sher-e-Kashmir University of Agricultural Sciences and Technology (SKUAST-J), Jammu

SKUAST-Jammu **(Sher-e-Kashmir University of Agricultural Sciences and Technology, Jammu)** is a leading agricultural university focused on research, education, and extension in J&K, known for **developing new crop varieties, improving livestock (like gene-edited sheep), and implementing climate-resilient farming,** offering UG/PG/PhD programs with faculties in **Agriculture, Horticulture, and Veterinary Sciences,** aiming to boost regional farming through innovation and farmer outreach.

Pillars of Agricultural Excellence in India

University of Agricultural Sciences, Dharwad, Karnataka

Established in 1986, the **University of Agricultural Sciences (UAS)**, Dharwad is a premier ICAR-accredited institution in Karnataka. It **excels in teaching, research, and extension,** overseeing seven districts with diverse agro-climatic conditions. **Ranked 35th nationally** in the agriculture sector, the university offers 46 programs, including B.Sc. (Hons) and MBA in Agribusiness. Known for the **"Dharwad Model",** it remains a vital hub for **sustainable agricultural innovation and rural development.**

Pillars of Agricultural Excellence in India

Agriculture University (AU), Baran Road, Borkheda, Kota, Rajasthan

Agriculture University, Kota, established in 2013 to boost agriculture in SE & E Rajasthan, focusing on diverse farming systems, with its main campus on Baran Road, Borkheda. It serves six districts (Kota, Baran, Bundi, Jhalawar, Karauli, Sawai Madhopur) and is crucial for **regional agricultural development,** despite initial infrastructure challenges compared to its parent universities.

KEY OBJECTIVES

- To provide holistic exposure to all branches of agricultural and allied sciences.
- To promote innovation, technology adoption, and sustainable practices in agriculture.
- To enhance students' practical and analytical understanding through online and campus-based learning
- To create a national academic network linking universities, institutions, and experts.
- To realize the dream of the **Lab to Land programme** by Hon'ble Central Agriculture Minister **Sh. Shivraj Singh Chouhan**.
- To provide valid, recognized academic engagement platform for online courses according to 6th Dean's Committee recommendations aligning NEP 2020 for 10 credit hours of online courses for partial fulfilment of degree.

PROGRAM HIGHLIGHTS

- **30 Days I 60 Hours I 10 Credit Hours Equivalent**
- **Hybrid Mode (Online + Partner University Practicals)**
- **National & International Expert Sessions**
- **Daily Q&A, assignments & digital resources**
- **Case studies + field-level practical demonstrations**
- **E-learning resource library**
- **Certificate recognized for academic credit**

Hydroponics & Protected Cultivation - Course Overview

- Basics and types of Hydroponics
- Components of Hydroponic systems
- Crop production and plant nutrition in Hydroponics
- Introduction to Protected Cultivation
- Types of Protected Cultivation structures
- Cladding materials used in Protected Cultivation
- Government schemes for Protected Cultivation
- Step-by-step process to grow leafy greens using Hydroponics
- Scientific and commercial understanding of soilless cultivation
- Complete guidance on running a Hydroponics business
- Post-harvest practices: sorting, grading, packing, sales & marketing
- Detailed lectures with video demonstrations

Building IoT Solutions for Smart Agriculture – Course Overview

- Introduction to the Internet of Things (IoT) and its role in enhancing agricultural productivity and reducing costs
- Understanding IoT concepts, capabilities, and applications in the agriculture sector
- Overview of smart agriculture concepts, goals, and frameworks
- Use of IoT for smart farming practices
- IoT applications in smart water management and energy management
- Identification of key components required to develop smart agriculture solutions
- Understanding different IoT verticals such as smart transportation, smart water resource management, and smart warehousing for agriculture
- Study of real-world case studies on IoT solutions and services in smar agriculture
- Basics of installation and use of network-connected smart devices in agricultural systems

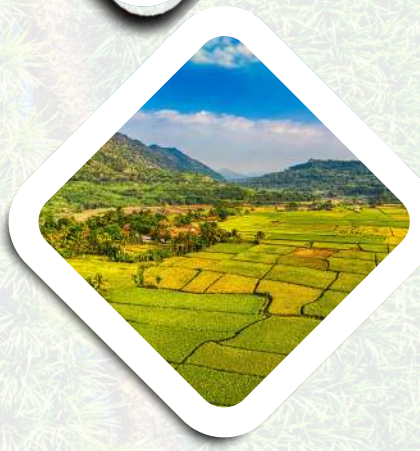
SaaS (Software as a Service) in Smart Agriculture



- Importance of data management in modern agriculture
- Role of SaaS-based cloud platforms in simplifying data collection, retrieval, processing, storage, and dissemination
- Managing field-level data challenges using cloud-based solutions
- Use of SaaS to collect data on weather cycles, crop patterns, soil health, harvesting, and satellite imagery
- Enabling quick, accurate analysis and decision-making for farmers and agribusinesses

Blockchain Technology in Agriculture

- Understanding concepts, goals, and frameworks of blockchain technology
- Benefits of blockchain implementation in agriculture:
  - Improved quality control and food safety
  - Enhanced traceability across the supply chain
  - Increased efficiency and transparency
  - Fair and timely payments to farmers
  - Ensuring fair farmer income
  - Reducing environmental footprint
  - Managing weather-related risks
  - Maximizing customer trust and satisfaction

LIST OF 16 TRAINING MODULES

Foundations of Sustainable Agriculture

Focus: Principles of sustainability, resource use efficiency, agroecological balance.

Includes: Agroecology, low input farming, regenerative agriculture, ecological footprints.

Natural Farming Principles and Practices

Focus: Zero Budget Natural Farming (ZBNF), biodynamic and permaculture systems

Includes: Jeevamrutha, Beejamrutha, mulching, indigenous knowledge systems

Soil, Seed, Water, and Crop Management

Focus: Soil health, traditional seed conservation, efficient irrigation.

Includes: Soil microbiome, organic matter cycles, seed banks, rainwater harvesting

Agri-Business, Policy, and Climate Resilience

Focus: Sustainable business models, government policies, and resilience building

Includes: FPOs, PM-KISAN, market linkages, climate risk mitigation strategies

Plant Pathology in Tech-Assisted Farming

Focus: Disease identification, forecasting, and organic control.

Includes: Fungal/bacterial pathogens, AI-based disease diagnostics, natural remedies.

AI, Drones, and IoT in Smart Farming

Focus: Technology integration in modern farming systems.

Includes: AI for crop modeling, drone-based surveillance, IoT soil sensors, smart irrigation

+91 9350844155, +91 9466744388 query.agrisaarthi@gmail.com www.agrisaarthi.in

कृषि एवं किसान कल्याण मंत्रालय
MINISTRY OF AGRICULTURE AND FARMERS WELFARE
सत्यमेव जयते

LIST OF 16 TRAINING MODULES

Agricultural Entomology & IPM

Focus: Insect-pest relationships and ecofriendly control methods.

Includes: Natural predators, trap cropping, biological control, drone-assisted pest scouting

Crop Improvement and Gene Editing

Focus: Breeding for resilience and productivity using advanced tools.

Includes: Traditional vs modern breeding, CRISPR, marker-assisted selection, GM vs non-GM debates

Agricultural Extension and Digital Advisory Services

Focus: Knowledge dissemination and tech adoption at grassroots.

Includes: Role of KVKs, mAgri apps, participatory extension, WhatsApp & AI bots in outreach.

Horticultural Farming and Post-Harvest Technologies

Focus: Sustainable fruit, vegetable, and floriculture practices.

Includes: Drip irrigation, integrated nutrition, cold storage, value-added products.

Integrated Aqua-Livestock Systems

Focus: Enhancing sustainability through synergy between plants and animals.

Includes: Mixed farming models, dung-based bioinputs, fodder planning, poultry/goat integration.

Climate-Smart Agriculture & Carbon Farming

Focus: Farming practices that reduce emissions and improve adaptation.

Includes: Resilient crop varieties, low-carbon inputs, weather insurance, carbon credits.

MINISTRY OF AGRICULTURE AND FARMERS WELFARE
सत्यमेव जयते

LIST OF 16 TRAINING MODULES

Agripreneurship, Startups, and Rural Innovation

Focus: Business opportunities in sustainable and tech-based farming.

Includes: Agri-tech startups, rural incubation centers, sustainable value chains

Integrated Pest and Nutrient Management

Focus: Combining natural inputs and precision tools for healthy crops.

Includes: Neem and biopesticides, drones for spraying, AI-based nutrient forecasting.

Future Farming Technologies and Trends

Focus: Innovations shaping the next era of agriculture.

Includes: Robotics, vertical farming, blockchain for traceability, urban agriculture

Digital Agricultural Marketing

Focus: Leveraging digital platforms to connect farmers directly with buyers, enhance market access, and increase transparency

Includes: Use of social media for product promotion and networking & Digital payment systems

KEY THEMATIC AREAS

Natural Farming and its Principles
Jeevamrutha, Beejamrutha, mulching, indigenous inputs, role of Cows

Smart & Digital Agriculture
AI, IoT, drones, robotics, remote sensing, DSS tools

Sustainable & Climate-Smart Agriculture
Climate adaptation, carbon farming, soil restoration

Crop Science & Production Technologies
Agronomy, horticulture, protected cultivation

Plant Protection Sciences
Entomology, pathology, disease forecasting

Soil & Water Resource Management
Soil fertility, irrigation, water-saving technologies

Allied Sciences
Dairy, poultry, fisheries, forestry, home science

Agri-Business & Entrepreneurship
Value chains, marketing, export readiness, startup models

Research, Policy & Innovation
NEP 2020 pedagogy, policy frameworks, proposal writing

+91 9350844155, +91 9466744388 query.agrisaarthi@gmail.com www.agrisaarthi.in

WHO CAN ATTEND

Students

B.Sc. (Agri/Horti), B.Tech./UG, M.Sc., Ph.D. Scholars, Research Associates

- • ICAR-recognised skill certification
- • Training, internship & placement support
- • Industry exposure, entrepreneurship & start-up insights

Academia & Scientists

SMS, Teaching Assistants/Associates, Assistant/Associate Professors, Professors, Scientists

- Industry–institution collaboration
- Skill-based education & applied research

Employees

- Skill certification & reskilling
- Career advancement & job security

Farmers

- Productivity & income enhancement
- Technology access & market linkages

+91 9350844155, +91 9466744388 query.agrisaarthi@gmail.com www.agrisaarthi.in

Partner Universities:

- ICAR- National Dairy Research Institute, Karnal, Haryana
- Central Agricultural University (CAU), Imphal
- Sher-e-Kashmir University of Agricultural Sciences and Technology (SKUAST-J), Chatha, Jammu
- Agriculture University (AU), Kota, Rajasthan
- SKRAU, Bikaner, Rajasthan
- UAS, Dharwad, Karnataka

*Registration is FREE for Farmers with Kisan/Farmer ID

Last Date to Register: 14th February 2026

CATEGORY	Fees for Hard & Soft Copy	For Partner Universities (Soft+Hard)	International Participants
B.Sc. Agri./ Horti./ Forestry/ Allied/ B.Tech./ B.V.Sc./ All UG Students	~~₹ 999~~ ₹ 699	~~₹ 899~~ ₹ 599	20 $
M.Sc. Agri/ Allied/ M.Tech./ MBA/ All PG Students	~~₹ 1099~~ ₹ 899	~~₹ 999~~ ₹ 799	25 $
JRF/ SRF/ RA/ TA/ YP/ All Ph.D. Scholars	~~₹ 1599~~ ₹ 1399	~~₹ 1499~~ ₹ 1299	30 $
Woking Professionals/ Faculty/ Scientist/ SMS/ KVK Professionals	~~₹ 2199~~ ₹ 1999	~~₹ 1999~~ ₹ 1899	35 $

Special Note

1. Any fee is Non-Refundable and Non-Transferable
2. Soft & Hard copy will be provided to all participants

Process of Registration and Special Note

- Payment can be made through any UPI App like PhonePe, Google Pay, Paytm, Amazon Pay, BHIM UPI, ICICI iMobile, HDFC PayZapp etc. by scanning QR code or through given UPI ID: **agrisaarthi@sbi**
- After successful payment (via Net Banking/ Online/ Bank App/ Mobile App) participants may register through online registration form along with payment slip/screenshot by scanning the QR Code or clicking on the given Registration link.
- Payment proof (slip/screenshot) containing properly visible **12 digits Transaction ID** need to be attached with online registration form.
- The Transaction ID or Payment Reference No. and Amount paid should be mentioned properly in the registration form to verify your payment for registration confirmation.
- Please **send your basic details along with payment screenshot containing proper transaction ID** to **+91 93509 44155** WhatsApp number to verify your details and add you in Official Registered Participants Group.
- Soft copies will be sent after 7 Days and Hard copies will be dispatched after 15 days of training completion to your given postal address. Please don't ask repeatedly about certificate before the mentioned time.

Legal and Organizational Disclaimer

- The inclusion of names of Organizing Committee members in this brochure is a formal acknowledgment of their valuable academic and professional contributions to agriculture and allied sciences. No honorarium or monetary remuneration is associated with such voluntary participation.
- Educational institutions are designated as Organizers or Knowledge Partners solely on the basis of the active academic or scientific involvement of their nominated representatives in roles such as Organizing Secretary, Keynote Speaker, or Scientific/Technical Coordinator. The display of institutional names and logos is strictly for academic recognition and does not imply any financial association, endorsement, or commercial partnership with the organizing body. All logos are used with due consent of the respective competent authorities.
- Any committee member who wishes to withdraw their name from the brochure may submit a formal request to the Organizing Authority, which shall be considered and acted upon appropriately.
- The organizing body is a non-profit academic initiative committed to the dissemination of research, innovation, best practices, and capacity building in agriculture and allied sectors, in alignment with national priorities for agricultural development and self-reliance.
- Queries under the Right to Information Act (RTI), if applicable, shall be addressed only after the conclusion of the event and strictly in accordance with prevailing statutory provisions.
- All disputes or legal matters, if any, arising in connection with this training/program shall be subject to the exclusive jurisdiction of the competent courts at Mohindergarh, Haryana, India only.
